The University of Washington is soliciting applications for postdoctoral fellowships in oral health research as a part of an NIDCR – funded training program.

RESEARCH AREAS RELEVANT TO ORAL HEALTH INCLUDE:

- Behavioral Dental Research (basic and applied)
- Biostatistics - applied to oral and craniofacial health
- Dental Public Health and Health Services
- Oral / Craniofacial Epidemiology
- Oral Biology
  - Craniofacial Biology, Development, and Disease
  - Microbial/Host Interactions and Immunology
  - Orofacial Structure and Function
  - Stem Cell Biology and Tissue Regeneration

WE SEEK TWO TYPES OF APPLICANTS:

- Those with a Ph.D. or equivalent degree (with or without a previous background in oral health) who would like to pursue a postdoctoral research agenda applied to oral health.
- Those with a D.D.S. or equivalent degree who want to pursue graduate training in an area of research interest, or those who would like to conduct mentored research without pursuing an additional graduate degree.

FELLOWSHIP STIPEND AND ELIGIBILITY

- Fellowships pay a stipend that is dependent on the amount of postdoctoral experience.
- Eligibility for most positions is limited to U.S. citizens or permanent residents, although one position for a non-U.S. citizen/permanent resident will become available on July 1, 2016.

All qualified applicants will receive consideration for this fellowship without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, protected veteran or disabled status, or genetic information.
